<p>12:10 - 13:10h</p>	<p>50/50 Networking session - roundtables / world café</p> <p>After short introduction participants, divided into smaller groups, will discuss and exchange experience on the key issues related to the energy education of different types of building users and to the implementation of the 50/50 concept. Possible topics are following:</p> <ul style="list-style-type: none"> • what are the most important benefits and challenges related to the implementation of the 50/50 concept? How to overcome the challenges? • how to involve different types of building users in the energy-saving actions? • how to ensure long-term change of behaviours (after the end of the project)? • what types of energy-saving measures can be implemented in different types of buildings? Is it possible to come up with a common energy saving path? 	<p>All participants</p>
<p>13:10 - 13:30h</p>	<p>Presentation of the conclusions from the 50/50 Networking session and wrap up</p>	<p>Team leaders PNEC</p>

13:30h

Lunch organized by PNEC joint with the 50/50 Movie corner

During the lunch participants will have an opportunity to watch movies made by schools and other public buildings participating in the project, showing how 50/50 concept works in practice

The conference will be accompanied by the exhibition of brochures, leaflets and other material developed by schools and other public buildings participating in the project.
